BUNKHOUSE / CAMP FOR THE HOUSING OF WORKERS

THE MUNICIPALITY OF CENTRAL ELGIN

Bunkhouse/ Camp for the Housing of Workers

Permit Guide

A bunkhouse is a structure that provides temporary accommodation for farm labour where the size and nature of the farm operation requires additional employment. The bunkhouse may be located on a parcel of land that is part of the extended farm operation but is not intended to be used as a permanent or principal place of residence. The bunkhouse is intended to be located within proximity to the farm building cluster to preserve prime agricultural lands. Where a bunkhouse is used as temporary accommodation for employees of multiple farm operations, the use shall be considered an on-farm diversified use.

Bunkhouse development is subject to site plan control and requires site plan approval.

This permit guide provides a summary of the Building Permit submission requirements for a bunkhouse and has been developed for convenience purposes only. The property owner is responsible for ensuring compliance with all Central Elgin By-laws, other applicable laws, and the Ontario Building Code.

Required Documents

1. Applicable Laws Checklist (In many instances, before a building permit application can be processed and a permit issued, there are other approvals from other agencies that are required. These approvals are not administered by the Building Division and are required as part of a complete application package. Please consult the applicable law checklist prior to applying for a building permit.)
2. Application to Construct or Demolish
3. Development Review Form
4. Owner Authorization Form (if the applicant is not the registered property owner)

How to Apply:

Step 1: Review and complete the Applicable Laws Checklist.

Step 2: Complete the required forms (see above/attached) and apply for a permit by submitting the forms and all required documentation in person or online through Cloudpermit. Please refer to our [website](#) for online submission instructions.

Once received the application will be reviewed for completeness and compliance with the Ontario Building Code and Applicable Law. Application review comments are provided during review to identify any outstanding requirements. A permit will be issued when the review is complete, and all fees are paid.

Construction may commence and required inspections requested once the permit is issued. When all required inspections are completed and requested documentation submitted, the permit will be closed.

Applicable Laws & Building Permits - Additional Information

In many instances, approvals are required from other agencies and authorities to ensure that a development can be safely and suitably accommodated on a proposed site. The requirements and regulations associated with these approvals can have significant impact on the design parameters of a project, so it is important that they are completed prior to applying for a building permit. Fully complete building permit applications are given priority by law and are less likely to have their review timelines impacted by the requirements and changes resulting from these other processes.

Zoning & Planning

Planning Act, s. 34, 34(5), 45 and Part VI

Zoning by-laws restrict things such as land use, lot size, building size and setbacks. If your project does not comply with the relevant sections of the zoning by-law, a minor variance or rezoning must be applied for and granted before any building permit can be issued. Zoning by-laws can also be used to restrict the issuance of building permits until an associated planning application (such as land division or subdivision) has been completed, or, until municipal servicing has been made available.

Planning Act, s. 41

Site Plan Approval is required for most new industrial, commercial, institutional and multi-residential buildings and additions. A finalized site plan, and site plan agreement must be registered on the title of the property before a building permit can be issued. Houses, residential accessory buildings and agricultural buildings are exempt from this process.

Design Requirements

Contact: Ontario Association of Architects www.oaa.on.ca or Professional Engineers Ontario www.peo.on.ca

Architects Act R.S.O. 1990 or Professional Engineers Act R.S.O. 1990

Certain buildings require design and general review by an architect and/or a professional engineer. Stamped design documents and 'Commitment to General Review' forms must be provided prior to the issuance of any building permits.

THE MUNICIPALITY OF CENTRAL ELGIN

DEVELOPMENT REVIEW FORM

The Building Code Act requires compliance to other applicable law and items identified under the Municipal Building By-law prior to issuance of a building permit.

In order to determine compliance, the Municipality of Central Elgin has developed the attached "Development Review Form" as a general guideline for residential and small construction projects. Failure to complete this form and submission of all required approvals as noted on the Development Review Form will leave municipal staff unable to determine compliance to other applicable law and, therefore, a building permit will not be reviewed or issued.

Building permit application time frames as set out in the Building Code Act will not commence until such time as the Development Review Form is complete and all approvals have been received.

Drawings are required to be to scale, legible and include:

- **Zoning Compliance**
 - o Site plan showing lot lines and dimensions, new and existing building sizes and locations, building height, building setbacks, street names, municipal address and north arrow, reference to legal survey or note stating survey stakes located and confirmed on site.
- **Lot Grading**
 - o Site plan showing lot lines and dimensions, new and existing building sizes and locations, building setbacks, location of paved surfaces, street names, municipal address and north arrow, location of septic field, reference to legal survey or note stating survey stakes located and confirmed on site, geodetic elevations and drainage arrows. Lot Grading plans must bear the signature and seal of a Professional Engineer, Landscape Architect, or Ontario Land Surveyor.
- **Access Permit**
 - o Site plan showing lot lines and dimensions, driveway location and width.
- **Service Permit**
 - o Site plan showing lot lines and dimensions, building setbacks, street names, municipal address and north arrow, location of service lines, location of driveways and sidewalks.
- **Proximity to Overhead Power Lines**
 - o Site plan identifying and confirmed by the Local Utility Company the proximity to overhead power lines.

Sections outlined below deal with applicable law as outlined in section 1.1.3.3. of the O.B.C, and the Municipal Building By-law as per section 7 of the BCA. Prior to the acceptance of a building permit application, all sections must be fully completed and approved by the appropriate authorities. Time frames for issuance of permits under the BCA, due not commence until all items below are completed and submitted with a complete building permit application to the municipality. This form is only a guideline for residential and small development in our area, additional reviews and approvals may be required.
