- 1. Completed Application Form
- 2. Schedule 1 (Designer Information) Development
- 3. Review Forms
- 4. Site Plan
- 5. Lot Grading Exemption Request or Grading Plan
- 6. Building Plans (Electronic Submissions Preferred)
 - Floor Plans (foundation, 1st floor, 2nd floor)
 - Exterior Elevations (front, side, rear)
 - Cross Section
- 7. Engineered Truss Plans and Engineered Floor Plans (if applicable)
- 8. Conservation Authority Approval (Catfish Creek or Kettle Creek where applicable)

SUBMISSION REQUIREMENTS

When submitting for a building permit the following items are required:

- Application to Construct or Demolish with Schedule 1 (Designer Information)
- Development Review Form completed with all other authorities having jurisdiction approval
- A Set of Building Plans to scale, legible and include:
 - Site Plan lot lines and dimensions, new and existing building sizes and locations, building setbacks, street names, municipal address and north arrow. (Plans submitted for development approval may also be re-submitted for building permit)
 - Foundation Plan showing; scale, dimensions, size type and location of all walls and partitions, width locations and lintel sizes for all openings, material specifications or notes.
 - Floor Plans showing; scale, dimensions, use of rooms and spaces, size type and location of all walls and partitions, width locations and lintel sizes for all openings, material specifications or notes, location and direction of stairs, references to details.
 - Elevations showing; scale, vertical dimensions, grade level, exterior finishes, overhang dimension, roof shape slope and finish, references to details.
 - Sections and Details showing; scale, details of footings foundation, walls, floors and roof, distance from grade to floors, roof and underside of footing, material specifications or notes.
 - All drawings to be done by a qualified designer with a valid BCIN (Except for exemptions as outlined under sections 2.17.4.1.(3) (4) and 2.17.5.1.(2) of the OBC)
 - Engineered Truss Drawing (with Engineers stamp) required prior to framing inspection. To avoid any problems it is recommended the stamped truss drawing be submitted with the permit application.
- General Review Commitment Certificate completed by engineer/architect for aspects of the building designed outside of part 9 of the OBC.

Incomplete applications will be rejected prior to review and will need to be resubmitted for issuance of permit.

As of August 22, 2016, By-Law 2029, being a by-law respecting the implementation of the Building Code Act, S.O. 1992, c.23. and cited as the "Building Permit By-Law":

9.11 **Building Permit Security Deposit**: With respect to the issuance of a building permit, a refundable security deposit will be paid to the Municipality to assure total completion of work authorized by the permit. The amount will be based on five (5) percent of the permit value to a maximum of \$1,000.00. The deposit will be held without interest until completion certificate is issued. The deposit will be returned in full, less any additional required inspection fees. If an extension for completion of the permitted work is not requested in writing and granted, then the deposit will be forfeited at the end of one year after the date of issuance of the permit. The fee contemplated by this section shall be forfeited in full if the building for which the permit was issued has been occupied prior to the issuance of a completion certificate.

Application for a Permit to Construct or Demolish This form is authorized under subsection 8(1.1) of the *Building Code Act*, 1992

1. For the purposes of this form, "individual" means the "person" referred to in Clause 3.2.4.7(1) (c) of Division C, Article 3.2.5.1. of Division C, and all other persons who are exempt from qualification under Subsections 3.2.4. and 3.2.5. of Division C.

2. Schedule 1 is not required to be completed by a holder of a license, temporary license, or a certificate of practice, issued by the Ontario Association of Architects. Schedule 1 is also not required to be completed by a holder of a license to practise, a limited license to practise, or a certificate of authorization, issued by the Association of Professional Engineers of Ontario.

DEVELOPMENT REVIEW FORM

The Building Code Act requires compliance to other applicable law and items identified under the Municipal Building By-law prior to issuance of a building permit.

In order to determine compliance, the Municipality of Central Elgin has developed the attached "Development Review Form (DRF)" as a general guideline for residential and small construction projects. Failure to complete this form and submission of all required approvals as noted on the DRF will leave the municipal staff unable to determine compliance to other applicable law and, therefore, a building permit **will not** be reviewed or issued.

Building permit application time frames as set out in the Building Code Act will not commence until such time as the DRF is complete and all approvals have been received.

Drawings are required to be to scale, legible and include:

• Zoning Compliance

Site plan showing lot lines and dimensions, new and existing building sizes and locations, building height, building set backs, street names, municipal address and north arrow, reference to legal survey or note stating survey stakes located and confirmed on site.

• Lot Grading

Site plan showing lot lines and dimensions, new and existing building sizes and locations, building setbacks, location or paved surfaces, street names, municipal address and north arrow, location of septic field, reference to legal survey or note stating survey stakes located and confirmed on site, (geodetic elevations) and drainage arrows. Lot grading plans must bear the signature and deal of a Professional Engineer, Landscape Architect, or Ontario Land Surveyor.

Access Permit

Site plan showing lot lines and dimensions driveway location and width.

• Service Permit

Site plan showing lot lines and dimensions, building setbacks, street names, municipal address and north arrow, location or service lines, location of driveways and sidewalks.

• Proximity to Overhead Power Lines

Site plan identifying and confirming by the Local Utility Company the proximity to overhead power lines.

Sections outlined below deal with applicable law as outlined in section 1.1.3.3. of the O.B.C, and the Municipal Building By-law as per section 7 of the BCA. Prior to the acceptance of a building permit application, all sections must be fully completed and approved by the appropriate authorities. Time frames for issuance of permits under the BCA, due not commence until all items below are completed and submitted with a complete building permit application to the municipality. This form is only a guideline for residential and small development in our area, additional reviews and approvals may be required.

Full Address of Project
