- Major Special Event - operates more than eight hours WITH projected attendance over 200
- Other Types of Events - operates less than eight hours WITH projected attendance under 200

Special events are a one time, annual or infrequently occurring activity that takes place within the facilities operated by Municipality of Central Elgin.

The primary characteristics of a special event include:

- The main purpose is to celebrate or display a specific theme;
- There is a predetermined opening and closing dates and time.

The program may consist of several separate activities and which are eight hours or more in length.

To further define special events, there are nine subcategories:

- Harvest and Agricultural
- Cultural
- Theatrical
- Festival
- Neighborhood Celebration
- Commemorative
- Sports (street or facility tournaments)
- Artistic
- Commercial

**Accessible Events**

An accessible event is one in which everyone can participate fully regardless of their ability. Disabilities include visual, physical, hearing, mental health, intellectual and learning. Use this section when planning outdoor events such as festivals, concerts, receptions, etc.

Organizers should be aware of the features that make an event venue accessible:

**Parking**

- Do you have designated disabled parking places?
- Are they as close to the entrance of the event as possible?
- Are event personnel familiar with the location of these parking spots?

**Public Entrance**

- Is there a level entrance that persons using wheelchairs or mobility aids can pass over and wide enough for wheelchairs to pass through? (>36 inches)
- If the main entrance has steps, does it also have a railing?

- Do staff and volunteers understand that service animals are permitted? Do any “no animal” signs also indicate that service animals are accepted?
- Are there barriers along outdoor and indoor paths that might cause problems for people who use canes, crutches or wheelchairs? Make sure that things like garbage cans and signs can be moved so there is at least a one-metre wide path of travel. Check if surfaces are level, firm, and stable.
- Are automatic doors available? If not, make sure you can prop doors open, or there will be volunteers who can help people trying to go through.

### **Lighting**

- Good lighting helps people who are Deaf or hard of hearing read lips or communicate using sign language.
- Direct natural light can cause shadows and glare, making it difficult for people with low vision to see.

### **Acoustics**

- Avoid significant echoes - this creates barriers for people who are hard of hearing.

### **Emergencies**

- Do you have an evacuation plan that addresses the evacuation of persons with special needs?
- Have you trained your staff in these evacuation procedures?

### **Washrooms**

- Have you provided, at a minimum, two accessible outdoor portable washrooms?

### **Signage**

- Are large, clear letters and plain language used on signs directing people to specific areas? Are they free from glare?

### **Entertainment Seating**

- Has an area been designated for people to use wheelchairs or mobility aids?
- Can a companion sit beside the person with the disability?
- Can you accommodate the Deaf or hard of hearing?

### **Room Set-up**

- Signs should contain common words and simple, short sentences.
- Cover electrical cables or cords that cross aisles or pathways.
- Ensure aisles are one metre or more.

- Make sure there are chairs for people who use canes or crutches and find it hard to stand for long periods.

### **Food**

- Are there event personal available to assist participants to get their food or beverages?
- Make sure there are spaces without chairs at the tables for every person using a wheelchair.
- Is part of the food counter lowered to allow persons with mobility aids to access it easily?
- Is there a clear path between tables for a mobility aid user to manoeuvre?
- Are food, drinks and utensils in easy reach of a person using a wheelchair?
- Are there bendable straws, and some cups with handles?

### **Promotions**

- Provide contact information so visitors can learn about the accessibility, or let you know what accommodations you can make so they can participate.
- Use a variety of ways to communicate (telephone, email, print) so that visitors can receive information and communicate with you.
- Use at least 12 point sans serif fonts (like Arial or Verdana)

### **General Etiquette**

- When presenting, use a microphone, speak slowly and describe images that are projected on the screen during a presentation.
- Focus on people's abilities
- Be respectful
- Never touch a service animal without the owner's permission
- Be patient and observant
- Ask the person if they require any assistance, and then wait for the response
- Speak to the person with the disability, not the individual who may accompany them
- Have a pen and paper handy to assist those who are deaf, deafened or hard of hearing.
