 - Conservation Authority Approval
(Catfish Creek or Kettle Creek where applicable)
- On properties with septic systems the pool shall be minimum 1.5m(4.92ft) from the septic tank and 5m(16.4ft) from the field bed.

What do you need to supply when making application for a building permit?

When submitting for a building permit the following items are required at the time of Application;

- **Application to Construct or Demolish with Schedule 1: Designer Information**
- **Development Review Form**, completed with all other authorities having jurisdiction approval.
- **2 sets of drawings**, to scale, legible and include:
 - o *Site plan*, lot lines and dimensions, new and existing building sizes and locations, building setbacks, street names, municipal address and north arrow. (Plans submitted for development approval may also be re-submitted for building permit)
 - o *Location*, distance measurements from Pool to lot lines, location and type of fencing and gates shall be indicated on the site plan
 - o *Undertaking for Repair form* shall be completed

Applications deemed to be incomplete will be rejected prior to review and will need to be resubmitted for issuance of building permit.

As of August 22, 2016, By-Law 2029, being a by-law respecting the implementation of the Building Code Act, S.O. 1992, c.23. and cited as the "Building Permit By-Law":

9.11 **Building Permit Security Deposit:** With respect to the issuance of a building permit, a refundable security deposit will be paid to the Municipality to assure total completion of work authorized by the permit. The amount will be based on five (5) percent of the permit value to a maximum of \$1,000.00. The deposit will be held without interest until completion certificate is issued. The deposit will be returned in full, less any additional required inspection fees. If an extension for completion of the permitted work is not requested in writing and granted, then the deposit will be forfeited at the end of one year after the date of issuance of the permit. The fee contemplated by this section shall be forfeited in full if the building for which the permit was issued has been occupied prior to the issuance of a completion certificate.

The Building Code Act requires compliance to other applicable law and items identified under the Municipal Building By-law prior to issuance of a building permit.

In order to determine compliance, the Municipality of Central Elgin has developed the attached “Development Review Form (DRF)” as a general guideline for residential and small construction projects. Failure to complete this form and submission of all required approvals as note on the DRF will leave municipal staff unable to determine compliance to other applicable law and, therefore, a building permit will not be reviewed or issued.

Building permit application time frames as set out in the Building Code Act will not commence until such time as the DRF is complete and all approvals have been received.

Drawings are required to be to scale, legible and include:

- **Zoning Compliance.** Site plan showing lot lines and dimensions, new and existing building sizes and locations, building height, building setbacks, street names, municipal address and north arrow, reference to legal survey or note stating survey stakes located and confirmed on site.
- **Lot Grading.** Site plan showing lot lines and dimensions, new and existing building sizes and locations, building setbacks, location of paved surfaces, street names, municipal address and north arrow, location of septic field, reference to legal survey or note stating survey stakes located and confirmed on site, (geodetic elevations) and drainage arrows. Lot grading plans must bear the signature and seal of a Professional Engineer, Landscape Architect, or Ontario Land Surveyor.
- **Access Permit.** Site Plan showing lot lines and dimensions, driveway location and width.
- **Service Permit.** Site Plan showing lot lines and dimensions, building setbacks, street names, municipal address and north arrow, location of service lines, location of driveways and sidewalks.
- **Proximity to Overhead Power Lines.** Site Plan identifying and confirming by the Local Utility Company the proximity to overhead power lines.

Sections outlined below deal with applicable law as outlined in section 1.1.3.3. of the O.B.C , and the Municipal Building By-law as per section 7 of the BCA. Prior to the acceptance of a building permit application, all sections must be fully completed and approved by the appropriate authorities. Time frames for issuance of permits under the BCA, due not commence until all items below are completed and submitted with a complete building permit application to the municipality. This form is only a guideline for residential and small development in our area, additional reviews and approvals may be required.
