Front Street Slope Stabilization Project Consultant Presentation

At the request of Council, Sandra Hayman P. Eng from IBI Group reviewed the Front Street Slope Stabilization Project with Council and answered their questions.

The Front Street slope is experiencing erosion and movements that could endanger the municipal road. While steel gravity bin-type retaining walls installed in the 1970s and 80s stabilized several sections of the slope, there are still unprotected areas that require rehabilitation to address the movements at the top of the slope.
